PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with expertise in designing and deploying end-to-end web applications. Proficient in bridging frontend interactivity with robust backend logic using the Java/Spring Boot and React ecosystem. Experienced in architecting scalable microservices and secure APIs while leveraging DevOps automation to optimize the development lifecycle. Committed to writing clean code and delivering high-performance, user-centric solutions.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL, Python

Backend: Spring Boot, Spring MVC, Hibernate, JPA, Microservices, RESTful APIs, JWT, gRPC

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Databases: MySQL, PostgreSQL, MongoDB, Prisma ORM

DevOps & Tools: Git, Maven, Docker, Terraform, Jenkins, CI/CD, LXC/LXD, Prometheus, Grafana

Networking & Security: TCP/IP, HTTP/HTTPS, DNS, Load Balancing, JWT, OAuth2

Testing: JUnit, Selenium, Postman, Swagger

PROJECTS

E-Commerce Platform — Java Full Stack Application

Technologies: Java, Spring Boot, React.js, MySQL, REST APIs, JWT, Razorpay

- Engineered a complete full-stack solution, integrating a responsive React.js frontend with a Spring Boot backend.
- Built secure REST APIs for authentication and order management with **JWT** and role-based access control.
- Integrated Razorpay payment gateway and optimized database operations using **JPA and Hibernate**.

Real-Time Cab Booking System — Full Stack Integration (Internship)

Technologies: Next.js, React.js, PostgreSQL, Prisma ORM, REST APIs, JWT

- Developed end-to-end features for real-time trip lifecycle management and driver-rider matching logic.
- Designed relational database schemas in **PostgreSQL** using Prisma for type-safe database access.
- Developed high-performance frontend dashboards in Next.js, ensuring seamless data synchronization with backend APIs.

HomeServ — Microservices Service Marketplace (Ongoing)

Technologies: Java, Spring Boot, Spring Cloud, Microservices, gRPC, Angular, PostgreSQL, Docker

- Architecting a decoupled microservices system using **Spring Cloud** (Eureka, Config Server).
- Implementing inter-service communication using **gRPC** and REST to facilitate scalable service discovery.
- Orchestrating full-stack deployment using **Docker** containers to ensure environment consistency.

INTERNSHIP EXPERIENCE

Bluvern — Cloud Architect Intern

Jul 2025 – Oct 2025

- Automated container provisioning using **Terraform** and LXC/LXD; monitored system health via **Prometheus and Grafana**.
- Contributed to the full-stack deployment strategy of a real-time cab booking platform.

Ether Infotech — Front-End Web Development Intern

Mar 2024 – Apr 2024

- Built responsive web pages and reusable UI components using HTML, CSS, and JavaScript.

Xpert Infotech — Desktop Support Intern

Jul 2023

- Provided technical support for hardware, software, and network protocols to maintain office uptime.

EDUCATION

SNS College of Technology, Coimbatore

B.E. Computer Science and Engineering — 2023 – 2026 — CGPA: 7.3 (Up to 7th Sem)

Sri Ramakrishna Polytechnic College, Coimbatore

Diploma in Computer Engineering — 2020 – 2023 — Percentage: 84%

CERTIFICATIONS

Java Full Stack Developer — Elysium Academy — Cloud Computing & Selenium — Infosys Springboard

ACHIEVEMENTS

Second Prize — TECHMEET 2021: Smart Attendance Using Face Recognition

Second Prize — Project Expo 2023: Interactive E-learning Application

LANGUAGES

Tamil, English
